

Representing the Best in Product Development Support Services

Quick Turn Prototype and Short Run Sheet Metal
MegaRoller Direct

Enclosures • Brackets • Frames • Chassis • 19" Racks.
Parts Built from 3D Files • 48 Hour Rush Shipping • 5 Day
Turn Standard • In House Powder Coat/Silk Screen

SLA – Castings – Models – Quick Turn Molding
(10-Year Partner)

3D-CAM, Inc.

SLA • Castings • Quick Turn Tooling • Injection
Molding • Investment Cast Patterns and Parts • Paint
Shop • Models.

High End Production RIM Molded Enclosures
Design Octaves

RIM Enclosures • Shielding • Painting • Inserts •
Decoration • Large Parts • Excellent Engineering
Support • UL Approved • 1/4 & 1/8 Wall Thickness.

Thermoplastic Production Extrusions
Long Time California Principal

Plastic Extrusions • Complex Profiles • Glass Filled
Material • Secondary Operations • TPE • TPR •
Aerospace • Prototype Runs • Strong Engineering

Production Tooling for OEMs and Molders
Long Time High Quality Principal

Production Tooling • High Volume Production • Short
Run • Turn Key Manufacturing • Hot Tip • Complex
Designs • Overmolds • USA Standards • Captured.

Made in USA Injection Molded Products
Long Time High Quality Principal

Convenient Bay Area Location • Production Injection
Molding • Overmolding • Decoration • 2 Shot Molding
• Clean Room Molding • Assembly • 80-1760 Ton

Quick Turn and Production Vacuum Forming
MegaRoller Direct

Wood, REN Shape and Aluminum Tooling • Quick
Turn and Short Run • Production Enclosures • POP
Displays • Secondary Operations • Silk Screening.

Quick Turn and Production CNC Machining
MegaRoller Direct

Mild Steel • Stainless Steel • Aluminum • Plastics •
Turning • Screw Machine • Weldments • Fixtures •
Finishing • EDM • Polishing • Plating • R & D.
